

Multimedia 1 - Graphic Design Unit

Goal: Increase your knowledge of Fireworks

Required products:

Create and Design Logos for the use in your final Web Portfolio

- Make 6-7 different designs - header/heading
- Use vector shapes/designs
- Saved as .png vector file

Create and Design Buttons for use in your final Web Portfolio

- Use Fireworks to make button/navigation bar
- Use vector shapes/designs
- Save as .png vector file.

One graphical advertisement/flyer saved to 8 x 10 in image for outputting to printer

- Use fireworks to create layout/design for advertisement
- Combine vector and bitmap images to create the ultimate flyer
- Audience should be teenager/MVHS student

Essential Learning for this Unit:

Manipulating/creating vector shapes/lines to create unique and original designs

Making buttons using Fireworks including pop-up menus

How do I acquire these skills in Web Design?

Lynda.com video training tutorials - Fireworks Basics (focus on vector chapters)

Web tutorials listed in the class bookmarks on the server

Optional Projects:

Proposals will be accepted the first day of a new Unit.
